Education

2026 - 2027
Western Sydney University / The College

Engineering

About Me

Engineering student with a strong interest in materials science and practical problem-solving. Experienced in laboratory testing, data analysis, technical report writing and presenting engineering findings. Currently building a professional portfolio aimed at the civil and construction engineering industry.

Experience / Projects

2026 - 2027
Engineering - Website Design

Applied problem-solving skills to practical engineering challenges including system optimisation and data interpretation.

Skills

- **Materials Analysis & Testing**
- **Technical Report Writing**
- **Data Analysis**
- **Problem Solving**
- **Microsoft Office / Excel**
- **Team Collaboration**
